Monthly Notes from Tide Mill Yacht Basin

WINDBAG HIGHLIGHTS

Happy Spring! Another winter is officially in the books, and while the season is starting off with its typical quiet pace, things are buzzing here at the yard. We are currently prepping the docks and organizing the grounds to ensure everything is perfect for your return.

Our team will be hard at work throughout April—weather permitting—to finalize all yard commissioning. We are all looking forward to a warm, dry spring and wish you a safe, healthy, and sun-filled summer on the water!

Keep an eye on the water levels this month! We are expecting perigean spring tides, which bring higher-than-normal highs and lower-than-usual lows. This occurs when the moon is at its closest point to Earth, most notably around:

Full Moon: April 2 , New Moon: April 19

Please be advised that the water on the docks and at the mill is currently turned off. We have scheduled system commissioning for April 6, after which service will be fully restored.

We can't wait to see you back at the basin—boating season is just around the corner!
